

# HOPE

We talk about human people  
people without a hold.  
Are they lost forever or do they believe?  
in what the father told.

Since there was a time  
the world was full of war.  
But one thing will never die  
'cause inside it will grow.

## **Bridge:**

Hope is the only truth, Hope will help us one day.  
Hope will keep us together, Hope's along our way.

So let's come together  
and we walk hand in hand.  
And if you just look around  
all things are from heaven sent.

You will never be alone  
people are at your side.  
And we will see a brighter world,  
there will be no more fight

## **Bridge:**

We all need hope.
