

# It's magic

It is a simple word,  
it's just a simple thing.  
A melody so nice,  
that's what we wanna bring.

We want to lift you up,  
lift to a better place.  
You cannot feel that you,  
you're in the outer space.

## **Chorus:**

It's magic, how we play that song.  
It's magic, how we came along.  
You know it's magic, it's magic what we sing.  
Uuuh it's magic, it's magic what we bring.

A smile is in your face  
you're at a better place.  
Everything so far away,  
you cannot go and you cannot stay.

## **Chorus**
