

Leave Me Alone

I Thought you were my great love
I thought this love was real and true.
I thought it's for the rest of my life
it's over now what can I do?

My big love now is going to die
it's ending and I don't know why.
It hurts so much deep in my heart
I just can do brand new start.

Chorus:

Leave me alone, get out of my heart.
Leave me alone, I have to re-start.
It's clear that our great love is gone
I think it's better when I am now alone.

I just can't stop thinking on you
I'm running forward what else can I do.
My life 'til now was a winding road
I'm starting new, there is no doubt.

And now you're gone and I am free
I don't look back, there is nothing to see.
The past is gone, the future is near
now I am free my way is clear.

Chorus:
