

# Out Of Nothing

I'm walking down the street  
and I don't know where to go.  
Crying out your unknown name  
I can't let my feelings flow.

I am searching out to you  
'cause I'm feeling so alone.  
And it hurts so much to say,  
that I can't find you on my way.

## **Chorus:**

You came out of nothing  
straight into my heart.  
You came out of nothing  
and everything will change,  
everything will change.

You brought color in my life  
everything has turned around.  
Happiness came back again  
togetherness is our way.

Our love must be by heaven sent  
nothing is between us.  
We are happy as we are  
and stay together 'til our end.

## **Chorus:**
