

Right In The Middle

Intro: e D C D e D C D e

We're playing our own songs, that is our Passion,
And every song we play, makes so much fun.
Now we are standing here, 5 friends together,
yes everybody have a very good time.

While we play our songs, they are starting dancing,
and they clap their hands, during this time.
We are so happy than, as we see smiling faces,
Yes, now we can be sure, we're at the right place.

Refrain:

And we are,
right in the middle, right in the middle, that's we are.
And we are,
right in the middle, right in the middle, yes we are.
